HEALTH AND SAFETY

- The Towers are heavy and two-man lifting is recommended. Provide support under the tower when installing as a wall mounted option..
- Determine positioning of wiring, water, or gas pipes within wall cavity. Mark this position if it applies..

MATERIALS REQUIRED

- Masking tape
- Bathroom Silicone (Wide adhesion features including plastics)
- Cleaning materials

IMPORTANT NOTICE! (TO BOTH INSTALLER, AND HOUSE OWNER/OCCUPIER)

All personnel have the specific responsibility to protect this Tower from water damage. Stein Towers surfaces are water resistant, but not classified as waterproof.

NEWLINE DOESN'T INCLUDE A WARRANTY FOR WATER DAMAGE AS ONSITE PERSONNAL ARE RESPONSIBLE

Installer

1. As this is designed as a wall mounted unit, this must be attached to solid wall framing.
2. All tiling must be completed prior to Tower installation. The warranty doesn't include restoration of tiling or wall finishing.
3. Avoid any distortion to the cabinet due to wall discrepancies as this will cause the doors to be misaligned.
4. If possible, hide the screw heads behind the removable shelves.
5. All joints in cabinet and cabinet to wall must be sealed.

House Owner/Occupier

1. When moisture is present in the bathroom, ventilation must be activated.
2. Water from cleaning or spills must be dried off without delay.
